**Brief Descriptions**

Children and teachers work together to decorate the New Year's Eve stalls and make items for sale at the stalls. On the event day, use simulated coins to participate in activities or shop at different stalls, including buying New Year flowers, waving spring, stall games, and decorations. During the activity, older brothers and sisters in the upper class led younger brothers and sisters in activities to learn to care for young children and improve their social skills. In addition to letting children understand New Year customs, it also enriches their learning experience. Parent volunteers also transformed into stall owners to enjoy the festive atmosphere together.
